

QM-7 Basic System

Making custom imprinted promotional products couldn't be easier with Press-A-Print's trademark QM-7 Transfer System. Over 18 billion dollars is spent each year on promotional products, making the promotional products industry one of the fastest growing in the world.

The QM-7 Transfer System allows even the non-experienced user to become part of this multi-billion dollar industry quickly and easily. Coffee cups, clocks, pens, golf balls, even walnuts; anything that can be imagined can be imprinted. With our extensive DVD "DIY" training program, support, product sourcing and wholesale buying power you'll receive all the tools you need to get started earning an income immediately and become a member of an industry where the sky's the limit.

Throughout your day notice all the promotional imprinted items you see, pens at the bank, coffee cups at the salon, printed paper pads at the dentist's office. All of those plus so much more can be printed by you with Press-A-Print's QM-7 Transfer System. Join the hundreds of other successful Press-A-Print operators around the country who have taken control of their lives while earning financial independence providing promotional printed products to associates and businesses.

Every QM-7 Transfer System comes with lifetime support, extensive manual and DVD training and with all the tools you'll need to get started imprinting right away. You'll never be left out in the cold, as our professional customer service department is available to offer technical assistance, product research and sourcing and marketing ideas to help get your business growing!
